Vitamin B₁ for Bulbs

Remarkable results have been obtained by watering Bulbs, as soon as the green shoots appear, with Vitamin B₁ solution . . . May be used on practically all plants, from Annuals to Trees . . . Not a fertilizer, but allows plants to assimilate more food by increasing the root system. Full directions with each package. 50c size (makes 250 gallons). \$1.00 size (1000 gallons).

"COLOR COVER" the BULB BED

. . . before, during, and after blooming with shallow-rooting, quick-to-bloom flower seeds. We recommend:
